**Subject:** mining

Dear Irene....I would like to express (briefly) my concern that mining companies (with millions at stake) do not always operate in an open straight forward way. I understand that there is a bill #228 I believe) that will help those of us know what they're up to. Please help us know about mine proposals and their impact to us. Our watershed and tourist industry is essential for our existence here in Crested Butte. Thaks you very much. Bob Brutsch,
